436-107-16 – Forensic Police Officer	84
803-103-18 - Opioid Overdose Intervention	88
828-102-15 - Prevention of Psychological Impacts (Manager).....	90

203-106-16 – Patroller Legal Knowledge Update

Course duration	7 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	30
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to update their knowledge of their powers of arrest, detention, release and search. Scenario-based simulations will prompt participants to discuss and reflect on their powers and limitations when faced with sometimes common but often unusual patrol situations.

Prerequisite(s)

None

Requirement(s)

- Must be a police officer.

Particularity

None

Content

Arrest without warrant – Arrest with warrant – Arrest authorized by the Code of Penal Procedure – Arrest in dwelling-house and warrant to enter dwelling-house – Search incident to arrest – Investigative detention and its limitations – Domestic violence intervention - Impaired driving cases involving chronic offenders - Bertillonage – Civil cases

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees (off-campus) ³		
Fixed fees for the group	\$1,380	Upon request
Variable fees per student	\$31	Upon request

¹ A participant is a client who participates in the funding of ENPQ pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1).

² Rate applicable for a client who is not participating in the ENPQ funding, pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1), and enrolled in a course under the responsibility of Advanced Police Training.

³ This course is offered off-campus. Accommodation and facility fees will apply if the course takes place at ENPQ.

Any other rate is available upon request.

Field(s)

- Police patrolling

Date of Last Revision

July 3, 2020

203-110-19 – Interactive Capsules – Intervention in a Domestic Violence Context (online training)

Course duration	30 min
Work in class	0 h
Mandatory work after class	0 h
Number of places	n/a
Number of groups planned	Upon request

Competencies or Objectives

To maintain and update the practices to adopt in the context of domestic violence intervention. To raise participants' awareness of appropriate strategies for interventions with men.

Prerequisite(s)

None

Requirement(s)

- Must be a police officer.

Particularity

These interactive capsules are in line with the 2018-2023 Government Action Plan on Domestic Violence from the Gouvernement du Québec. They were developed in collaboration with the Ministère de la Sécurité publique of the Gouvernement du Québec and the Sûreté du Québec. This training is deployed in organizations through facilitators and takes the form of short interactive videos.

Content

Situation of domestic violence today – Raising awareness of men who are victims of violence – Police intervention with men who are perpetrators of domestic violence – Support resources available to men in the context of domestic violence

203-201-10 – Patroller Competencies Update

This course requires a certain amount of physical exertion.

Course duration	80 h
Work in class (included in the course duration)	10 h
Online preliminary work	1.5 h
Mandatory work after class	0 h
Number of places	24
Number of groups planned	To be confirmed

Competencies or Objectives

To update students' operational skills by involving them fully and directly in different situations in which they may be called upon to intervene as patrol officers within the context of their duties. While taking advantage of the methods and strategies of the experiential approach, they will be called upon to take an active part in basic training situations or in simple and complex reality situations.

Prerequisite(s)

None

Requirement(s)

- Must be a police officer.

Particularity

During this course, participants must leave ENPQ and/or campus in uniform.

A 1.5 hour online pretest must be completed in the digital learning environment (Moodle).

École nationale de police du Québec – Course catalogue

This course is closely linked to the patrol officer's basic competencies and is a logical continuation within a maintenance of competence approach. Students will have to play an active role in their updating process. This will give them the opportunity to benefit from personalized and group coaching, as well as technical, methodological and operational reframing.

This course focuses on complex realities (physical and emotional intensity – unpredictability – stressors, etc.), which integrate a context of social tension (uncooperative citizen) and intervention with mentally disturbed people.

This course requires a certain amount of physical exertion. It is strongly recommended that the organization assess the student's health and fitness using the [Physical Activity Readiness Questionnaire \(PAR-Q\)](#) .

Risk Acceptance

From the time of reservation, registration and until the end of training, the organization certifies that the student is fit to take the course and accepts the inherent risks. The organization is responsible for cancelling a student's registration if the student's health and fitness are no longer sufficient for the course. Furthermore, ENPQ reserves the right to interrupt a student's training if it has reason to believe that the student's health and fitness are not adequate; ENPQ will inform the organization accordingly.

Content

Becoming familiar with operating models – Handcuffing techniques – Joint restraint techniques – Neck restraint techniques - Group intervention techniques - Communication – Body search techniques – Tactical movement and room search techniques – Legal aspects - Stress – Mental preparation – Basics of police interception and pursuit – Foot pursuit – Containment capability – Scenario-based simulations on various themes

Simple and complex reality training: *low, moderate and high-risk vehicle interception, intervention in different contexts (domestic violence, mental health, noise complaints, etc.)*

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees	\$1,496	\$2,450
Lodging (room and board, single occupancy, taxes not included)		

École nationale de police du Québec – Course catalogue

Preferred daily rate \$76	\$760	
Regular daily rate \$108		\$1,080
TOTAL	\$2,256	\$3,530

¹A participant is a client who participates in the funding of ENPQ pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1).

²Rate applicable for a client who is not participating in the ENPQ funding, pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1), and enrolled in a course under the responsibility of Advanced Police Training.

Any other rate is available upon request.

Field(s)

- Police patrolling

Date of Last Revision

July 3, 2020

206-202-06 – Police Traffic Lidar (Laser)

Course duration	40 h
Work in class	0 h
Mandatory work after class	4 h
Number of places	6
Number of groups planned	Upon request

Competencies or Objectives

To enable students to acquire practical and legal knowledge associated with the use of a laser speed measuring device within the recognized jurisprudential framework.

Prerequisite(s)

None

Requirement(s)

- Must be a peace officer.

Particularity

Students who have met the requirements of this course must be requalified every five years.

Content

Speeding violations and law enforcement — Basic principles of the police laser — Verification — Use — Legal and operational considerations — Safety — Court testimony — Presentation of the devices — Supervised exercises — Directives of École nationale de police du Québec and police forces — Moot court

2020-2021 Student Rate

This course is generally taught by a requalification instructor duly trained by École nationale de police du Québec. This in-house course takes place within Quebec police organizations.

ENPQ may nonetheless offer this course to police forces requesting it. Both parties will agree to a rate depending on where the course is given and how many students are registered.

Additional Information

Successful completion of this course is required to register for:

- *Police Traffic Lidar (Laser) - Requalification [206-302-06]*
- *Police Traffic Lidar (Laser) – Requalification Instructor [206-601-16]*

Date of Last Revision

July 8, 2020

206-302-06 – Police Traffic Lidar (Laser) - Requalification

Course duration	8 h
Work in class	0 h
Mandatory work after class	2 h
Number of places	3
Number of groups planned	Upon request

Competencies or Objectives

To enable students to review their knowledge and professional attitudes necessary in correctly using a laser speed measuring device according to the particular specifications related to its use within the recognized jurisprudential framework.

Prerequisite(s)

- *Police Traffic Lidar (Laser)* [206-202-06] or *Police Traffic Lidar (Laser) – Specific Concepts* [206-303-06].

Requirement(s)

- Must be a peace officer.
- Must have kept one's knowledge updated regarding the use of this device.
- Requalification is conditional on the successful completion of a diagnostic test to be performed at the beginning of the course as well as the achievement of all the minimal indicators stated on the certification evaluation grid. Students who fail the diagnostic test (passing score: 60 %) will not be allowed to continue the requalification process, but will be entitled to retake the test 30 days later.
- During this period, their requalification is suspended and therefore they may not use a laser unit.
- If students fail the diagnostic test once again or the certification evaluation, they will be required to repeat the entire *Police Traffic Lidar (Laser)* [206-202-06] course or the *Police Traffic Lidar (Laser) – Specific Concepts* [206-303-06] course, as the case may be.
- Students whose qualification expired on December 31 of the 5th year of their training may be requalified by a requalification instructor within the following six (6) months, i.e., until June 30 of the following year. However, during these six (6) months, they will not be authorized to use the device until they have been requalified. If they are still not requalified after this period, they will have to take the two-day course *Police Traffic Lidar (Laser) Refresher and Requalification* [206-307-16] given by an instructor within a period of no more than 18 months, i.e., until December 31 of the 7th year of the qualification.

Particularity

Students who have met the requirements of this course must be requalified every five years.

Content

Verification of the different components of the device before and after the operation - Identification of an operation site – Use of the police traffic laser – Writing of the statement of offence and forms – Proper handling of the device – Mastery of the basic principles

2020-2021 Student Rate

This course is generally taught by a requalification instructor duly trained by École nationale de police du Québec. This in-house course takes place within Quebec police organizations.

ENPQ may nonetheless offer this course to police forces requesting it. Both parties will agree to a rate depending on where the course is given and how many students are registered.

Additional Information

Successful completion of this course is required to register for:

- *Police Traffic Lidar (Laser) - Instructor [206-701-20]*

Field(s)

- Police patrolling

Date of Last Revision

July 8, 2020

206-701-20 – Police Traffic Lidar (Laser) - Instructor

Course duration	24 h
Work in class	0 h
Mandatory work after class	2 h
Number of places	6
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to integrate into their teaching the basic strategies and teaching practices advocated by ENPQ. To enable students to acquire the specific competencies to train peace officers on how to use the laser speed measuring device and to ensure that their respective technical skills are maintained and enhanced.

Prerequisite(s)

- *Animator* [232-201-06] or *Teaching and Learning Practices* [232-201-08] or *Teaching Practices and Coaching* [232-204-07] or *Integration to the Instructor Function* [232-803-16]
- *Police Traffic Lidar (Laser)* [206-202-06] or *Police Traffic Lidar (Laser) - Requalification* [206-302-06] or *Police Traffic Lidar (Laser) – Specific Concepts* [206-303-06]

Requirement(s)

- Must be a peace officer.
- Must successfully complete the diagnostic test at the beginning of the course with a passing score of 80 %. If students fail this test, they will not be allowed to continue the training and will be required to repeat the *Police Traffic Laser – Requalification* [206-302-06] course.

Particularity

Students who have met the requirements of this course must be requalified every three years.

Content

General notions — Basic principles — Verification — Use — Legal and operational considerations — Demonstration — Court testimony — Directives of École nationale de police du Québec and police forces — Student presentation— Practical assignments

2020-2021 Student Rate

	Participant ¹	Non participant ²

206-703-20 – Police Traffic Radar (Doppler) - Instructor

Course duration	24 h
Work in class	0 h
Mandatory work after class	2 h
Number of places	6
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to integrate into their teaching the basic strategies and teaching practices advocated by ENPQ.

To acquire the specific competencies to train peace officers on how to use the police traffic radar and to ensure that their respective technical skills are maintained and enhanced.

Prerequisite(s)

- *Animator* [232-201-06] or *Teaching and Learning Practices* [232-201-08] or *Teaching Practices and Coaching* [232-204-07] or *Integration to the Instructor Function* [232-803-16]
- *Police Traffic Radar (Doppler)* [206-201-06] or *Police Traffic Radar (Doppler) - Requalification* [206-301-07] or *Stationary and Moving (Oncoming Traffic) Police Traffic Radar (Doppler)* [206-207-15] or *Stationary and Moving (Oncoming Traffic) Police Traffic Radar (Doppler) - Requalification* [206-301-15] or *Stationary Police Traffic Radar (Doppler) - Requalification* [206-305-15] or *Stationary and Moving (Oncoming Traffic) Police Traffic Radar (Doppler) – Refresher and Requalification* [206-308-17] or *Stationary Police Traffic Radar (Doppler) – Refresher and Requalification* [206-306-15]

Requirement(s)

- Must successfully complete the diagnostic test at the beginning of the course with a passing score of 80 %. If students fail this test, they will not be allowed to continue the training. If they obtain a result below 60 %, they will be required to repeat the *Stationary and Moving (Oncoming Traffic) Police Traffic Radar (Doppler) – Requalification* [206-301-15] course or the *Stationary Police Traffic Radar (Doppler) - Requalification* [206-305-15] course.
- Must be a peace officer.

Particularity

Students who have met the requirements of this course must be requalified every three years.

Content

Role of the instructor – Planning teaching and learning activities – Facilitating an activity – Evaluating a performance – Becoming familiar with the training kit

209-109-18 – Powers and Duties of the Peace Officer with Respect to Impaired Driving Refresher

Course Duration	4 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	20
Number of groups planned	Upon request

Competencies or Objectives

To enable students to analyze Part 1 and Part 2 of the amendments to the new legislative provisions contained in Bill C-46, while highlighting the impact the amendments with respect to impaired driving will have on police work (new powers and duties, new offences, new tools, new practices).

Prerequisite(s)

- *Introduction to the Cannabis Legislation (online training)* [226-101-18]

Requirement(s)

- Must be a peace officer.

Particularity

The *1.2 Powers and Duties of the Peace Officer With Respect to Impaired Driving Refresher* [209-109-18] course is part of a training plan consisting of seven courses that will be deployed over a five-year period. This training plan was developed in collaboration with Québec police organizations, First Nations/Inuit police organizations, Québec Highway Controllers and the Ministère de la Sécurité publique du Québec. Government funding is provided for all the courses included in this plan.

Content

Introduction and history of Bill C-46 – Federal legislative amendments and particularities – Provincial adaptation (Bill 157) – Decision-making process

2020-2021 Student Rate

Free for Québec police forces, First Nations/Inuit police forces and Québec Highway Controllers (the course is funded by the Cannabis Legalization Impact Management Program [Programme de la gestion des impacts de la légalisation du cannabis]).

Additional Information

Successful completion of this course is required to register for:

- *Impaired Driving Investigation Refresher* [209-110-18]
- *Physical Coordination Tests Refresher - Instructor (without requalification)* [209-711-20]
- *Blood Sample Collection (online training)* [209-113-19]

Field(s)

- Police patrolling

Date of Last Revision

209-110-18 – Impaired Driving Investigation Refresher

Course duration	4 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	20
Number of groups planned	Upon request

Competencies or Objectives

To enable students to update their competencies regarding impaired driving investigation (work method, new terminology, signs and symptoms of the seven drug categories and the decision-making process) in order to increase their confidence and effectiveness in the field.

Prerequisite(s)

- *Introduction to the Cannabis Legislation (online training)* [226-101-18]
- *Powers and Duties of the Peace Officer with Respect to Impaired Driving Refresher* [209-109-18]

Requirement(s)

- Must be a peace officer.

Particularity

The *1.3 Impaired Driving Investigation Refresher* [209-110-18] course is part of a training plan consisting of seven courses that will be deployed over a five-year period. This training plan was developed in collaboration with Québec police organizations, First Nations/Inuit police organizations, Québec Highway Controllers and the Ministère de la Sécurité publique du Québec. Government funding is provided for all the courses included in this plan.

Content

Introduction to impaired driving in Québec and Canada – Drug categories – The 3-phase investigation – Continuation of the investigation and report writing

2020-2021 Student Rate

Free for Québec police forces, First Nations/Inuit police forces and Québec Highway Controllers (the course is funded by the Cannabis Legalization Impact Management Program [Programme de la gestion des impacts de la légalisation du cannabis]).

Additional Information

Successful completion of this course is required to register for:

- *Physical Coordination Tests Refresher - Instructor (without requalification)* [209-711-20]
- *Blood Sample Collection (online training)* [209-113-19]

Field(s)

- Police patrolling

Date of Last Revision

July 6, 2020

209-112-19 – Physical Coordination Tests Refresher

Course duration	4 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	6
Number of groups planned	Upon request

Competencies or Objectives

To enable students to administer the physical coordination tests in an impaired driving context.

Prerequisite(s)

- *Physical Coordination Tests* [209-205-08]

It is strongly suggested that students have completed the three (3) courses below from the Cannabis Project training plan:

- *Introduction to the Cannabis Legislation (online training)* [226-101-18]
- *Powers and Duties of the Peace Officer with Respect to Impaired Driving Refresher* [209-109-18]
- *Impaired Driving Investigation Refresher* [209-110-18]

Requirement(s)

- Must be a peace officer.

Particularity

This course is part of a training plan consisting of seven courses that will be deployed over a five-year period. This training plan was developed in collaboration with Québec police organizations, First Nations/Inuit police organizations, Québec Highway Controllers and the Ministère de la Sécurité publique du Québec. Government funding is provided for all the courses included in this plan.

Content

Physical coordination tests within the impaired driving investigation — “Horizontal gaze nystagmus” test — “Walk-and-turn” test — “One-leg stand” test — Assessment of one’s observations and decision-making

2020-2021 Student Rate

Free for Québec police forces, First Nations/Inuit police forces and Québec Highway Controllers (the course is funded by the Cannabis Legalization Impact Management Program [Programme de la gestion des impacts de la légalisation du cannabis]).

Field(s)

- Police patrolling

Date of Last Revision

July 8, 2020

209-113-19 – Blood Sample Collection (online training)

Course duration	20 minutes
Work in class	0 h
Mandatory work after class	0 h
Number of places	n/a
Number of groups planned	Upon request

Competencies or Objectives

To enable students to take a blood sample in an impaired driving context.

Prerequisite(s)

- *Introduction to the Cannabis Legislation (online training)* [226-101-18]
- *Powers and Duties of the Peace Officer with Respect to Impaired Driving Refresher* [209-109-18] or *Powers and Duties of the Peace Officer with Respect to Impaired Driving Refresher – Monitor (without requalification)* [209-610-18] or *Powers and Duties of the Peace Officer with Respect to Impaired Driving Refresher– Instructor (without requalification)* [209-807-18]
- Impaired Driving Investigation Refresher [209-110-18]

Requirement(s)

- Must be a peace officer.

Particularity

This course is part of a training plan consisting of seven courses that will be deployed over a five-year period. This training plan was developed in collaboration with Québec police organizations, First Nations/Inuit police organizations, Québec Highway Controllers and the Ministère de la Sécurité publique du Québec. Government funding is provided for all the courses included in this plan.

The course and teaching material are available in the digital learning environment (Moodle). It is the student's responsibility to read and print the material, if desired.

Content

*Legislative and operational framework — Qualified technician — Procedure — Room set-up — Solutions for exceptional situations
— Relevance of the evaluating officer related to blood sample collection*

2020-2021 Student Rate

Free for Quebec police forces, First Nations/Inuit police forces and Québec Highway Controllers (the course is funded by the Cannabis Legalization Impact Management Program [Programme de la gestion des impacts de la légalisation du cannabis]).

Field(s)

- Police patrolling

Date of Last Revision

July 8, 2020

209-310-10 – Evaluating Officer

Course duration	80 h
Work in class	20 h (approx.)
Mandatory work after class*	25 h
Number of places	16
Number of groups planned	To be confirmed

* Please note that the 25 hours of mandatory work after class are actually study hours.

Competencies or Objectives

To enable students to acquire the theoretical and practical knowledge to evaluate an impaired person according to the standards of the International Association of Chiefs of Police (IACP) in order to render an opinion on the identified category or categories of drugs used.

Prerequisite(s)

- *Physical Coordination Tests* [209-205-08]

Requirement(s)

- Must be a peace officer.

Particularity

The theoretical training (80 h) is given at ENPQ and is followed by the practical training [209-312-11] which is required for the students to be certified as evaluating officers (or drug recognition experts). Students who have not successfully completed the practical evaluation of the physical coordination tests at the end of the first week of the theoretical training will not be able to continue the training.

A student failing the comprehensive final knowledge examination may be retested one time. The retest must be completed not more than four weeks following the completion of the theoretical training.

Students must complete both theoretical and practical training courses within a six-month period.

Content

Drugs in society and in vehicle operation — Physical coordination tests and evaluating officer procedures — Signs and symptoms related to drug categories — Notions on alcohol — Physiology and drugs — The seven drug categories — Drug combinations — Drafting of the forms — Case preparation and testimony

2020-2021 Student Rate

The training fees are included in the *Evaluating Officer - Practical* [209-312-11] course, so please refer to it. Note that this training is a prerequisite to the practical training.

Additional Information

Successful completion of this course is required to register for:

- *Evaluating Officer - Instructor* [209-804-11]
- *Evaluating Officer Information Day* [209-107-11]
- *Evaluating Officer - Requalification* [209-311-10]
- *Evaluating Officer - Practical* [209-312-11]

Field(s)

- Police patrolling

Date of Last Revision

July 8, 2020

209-311-10 – Evaluating Officer - Requalification

Course duration	4 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	4
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to maintain their competency as evaluating officers (also referred to as DRE) and to update their knowledge and work method to detect and identify drugs based on signs they observe in an individual.

Prerequisite(s)

- *Drug Evaluation and Classification – Evaluating Officer* [209-310-08] or *Evaluating Officer* [209-310-10] or have successfully completed the Drug Evaluation and Classification Program-approved DRE training.

Requirement(s)

- Must be a peace officer.

Particularity

According to the international standards of the Drug Evaluation and Classification (DEC) Program, evaluating officers must renew their certification every two years. At the beginning of the recertification course, they must present an updated curriculum vitae and evaluation rolling log to the provincial DEC Program coordinator. To comply with the DEC Program training standards, candidates registering for this course must have previously performed a minimum of three evaluations on intoxicated subjects. These evaluations must have been validated by a certified instructor. Finally, candidates must have completed eight hours of recertification training. This training can be divided into two sessions of at least four hours each that must comply with the standards of the International Association of Chiefs of Police (IACP).

Content

Powers and duties with respect to impaired driving— Conducting an evaluation — Interpretation of the results — Preparation of a file to institute legal proceedings

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees	\$468	\$767
Lodging (room and board, single occupancy, taxes not included)		
Preferred daily rate \$76	\$76	
Regular daily rate \$108		\$108
TOTAL	\$544	\$875

¹A participant is a client who participates in the funding of ENPQ pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1).

²Rate applicable for a client who is not participating in the ENPQ funding, pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1), and enrolled in a course under the responsibility of Advanced Police Training.

Any other rate is available upon request.

Field(s)

- Police patrolling

Date of Last Revision

July 3, 2020

209-312-11 – Evaluating Officer - Practical

Course duration	64 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	16
Number of groups planned	To be confirmed

Competencies or Objectives

To verify whether the evaluating officer has maintained the theoretical and practical knowledge on drug detection and identification in an intoxicated person at an optimal level. To perform evaluations as an evaluating officer on intoxicated subjects and professional actors according to the standards of the International Association of Chiefs of Police (IACP) and be able to render an opinion on the identified category or categories of drugs used.

Prerequisite(s)

- *Evaluating Officer* [209-310-10]

Requirement(s)

- Must be a peace officer.

Particularity

Some of the practical training is provided at external resource facilities in Montreal. Students are confronted with a diverse clientele of intoxicated individuals. Start and end times may vary. If there is a lack of sufficient numbers of intoxicated subjects available for the practical training, the DEC Program allows, under certain conditions, to conduct evaluations by utilizing professional actors. This part of the practical training follows the one given in Montreal and takes place at ENPQ.

During the week, students will have to complete an 8-hour final knowledge examination. If they fail this examination, they will not be able to continue training. They will have to take the entire *Evaluating Officer* [209-310-10] and *Evaluating Officer – Practical* [209-312-11] courses again.

École nationale de police du Québec – Course catalogue

Students meeting the requirements of this course will be designated as evaluating officers (or drug recognition experts) and will receive a certification card issued by IACP that will be valid for two years. Recertification must be completed three to six months prior to the expiration date indicated on their card.

Please note that for the training taking place in Montreal, accommodation and meal expenses are the responsibility of the organizations at their expense. In the event that part of the practical training is given at ENPQ, accommodation costs will be billed to the organizations according to the applicable rate.

The cost of this training includes the cost of the *Evaluating Officer* [209-310-10] course.

Content

Powers and duties with respect to impaired driving— Conducting an evaluation — Interpretation of the results — Preparation of a file to institute legal proceedings

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees	\$10,529	\$13,178
Lodging (room and board, single occupancy, taxes not included)		
Preferred daily rate \$76	\$760

210-201-08 – Bicycle Patrol

This course requires a certain amount of physical exertion.

Course duration	21 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	6
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to acquire the knowledge and skills that will allow them to use a bicycle effectively as a means of patrolling.

Prerequisite(s)

None

Requirement(s)

- Must be a peace officer.

Particularity

During this course, participants must leave ENPQ and/or campus in uniform.

Students must have bicycle-riding skills. Students must supply their own bicycles, support for transportation as well as the appropriate material and equipment. Bicycles must be adapted for road and off-road use and be equipped with front suspension and wide tires.

This course requires a certain amount of physical exertion. It is strongly recommended that the organization assess the student's health and fitness using the [Physical Activity Readiness Questionnaire \(PAR-Q\)](#) .

Risk Acceptance

From the time of reservation, registration and until the end of training, the organization certifies that the student is fit to take the course and accepts the inherent risks. The organization is responsible for cancelling a student's registration if the student's health

and fitness are no longer sufficient for the course. Furthermore, ENPQ reserves the right to interrupt a student's training if it has reason to believe that the student's health and fitness are not adequate; ENPQ will inform the organization accordingly.

Content

Equipment and clothing necessary for bicycle patrol — Notions about bicycle adjustment — Patrol techniques (intercepting pedestrians, bicycles and automobiles) — Trail courses — Aerobic courses — Off-road courses — Pursuits and defensive manoeuvres — Practical exercises

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees	\$516	\$830
Lodging (room and board, single occupancy, taxes not included)		
Preferred daily rate \$76	\$228	
Regular daily rate \$108		\$324
TOTAL	\$744	\$1,154

¹ A participant is a client who participates in the funding of ENPQ pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1).

² Rate applicable for a client who is not participating in the ENPQ funding, pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1), and enrolled in a course under the responsibility of Advanced Police Training. Any other rate is available upon request.

210-202-18 – Legal Framework Regarding Marine Patrol — Block 1

Course duration	24 h
Work in class	0 h
Online preliminary work (not included in the course duration)	30 min
Mandatory work after class	0 h
Number of places	10
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to become familiar with the laws and regulations associated with marine patrol.

Prerequisite(s)

None

Requirement(s)

It should be noted that the documents mentioned below are recommended for the *Legal Framework Regarding Marine Patrol – Block 1* [210-202-18] course but will be mandatory for the *Marine Patrol – Block 2* [210-303-18] course.

- Must be a police officer.
- Hold a Pleasure Craft Operator Card (PCOC) for a vessel not exceeding eight metres. See [Transports Canada TP15111E](#) for applicable restrictions on where you can navigate.
- Hold a Small Vessel Operator Proficiency (SVOP) for a vessel more than eight metres in length and less than or equal to five gross tons (GT). See [Transports Canada TP15111E](#) for applicable restrictions on where you can navigate.
- Hold a Limited Master (< 60 GT) for a vessel more than five gross tons. See [Transports Canada TP15111E](#) for applicable restrictions on where you can navigate. Must also hold Marine Basic First Aid and MED A1.
- Hold the SDV-BS (Small Non-Pleasure Domestic Vessel Basic Safety) formerly known as MED A3. This certificate is mandatory with the Small Vessel Operator Proficiency.

École nationale de police du Québec – Course catalogue

- Regarding the Pleasure Craft Operator Card or the Small Vessel Operator Proficiency, must also hold a valid Marine Basic First Aid certificate or any other valid 16-hour general first aid training certificate. At least one person per vessel must hold such a certificate.
- Hold a Restricted Operator's Certificate with DSC (VHF) endorsement for any patroller working on board a vessel and operating such equipment.

Particularity

Students must first complete a 30-minute, 20-question online preliminary tests in the digital learning environment (Moodle).

Please note that students who have not obtained the Pleasure Craft Operator Card and Restricted Operator's Certificate with DSC (VHF) endorsement will have difficulty answering some questions.

The course material is available in the digital learning environment (Moodle).

Content

Knowing the powers and duties under the jurisdiction of the Canada Shipping Act, 2001 – Utilizing the legal documents – Knowing and enforcing the acts and regulations regarding boating safety – Completing the forms – Being able to read a nautical chart and use its coordinates

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees	\$416	\$661
Lodging (room and board, single occupancy, taxes not included)

210-203-06 – Act Respecting Off-Highway Vehicles

Course duration	8 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	12
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to become familiar with the different elements of the Act Respecting Off-Highway Vehicles and its applicable regulations in accordance with the Highway Safety Code.

Prerequisite(s)

None

Requirement(s)

- Must be a peace officer.

Particularity

The teaching material of this course is available in the digital learning environment (Moodle).

Content

Recognizing and applying the powers and duties permitted by law according to the jurisdiction — Utilizing the legal documents — Knowing and enforcing the Act Respecting Off-Highway Vehicles, the applicable regulations and the Highway Safety Code — Knowing the traffic and signs rules — Knowing the rules pertaining to users — Filling out forms

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees	\$176	\$286
Lodging (room and board, single occupancy, taxes not included)		
Preferred daily rate \$76	\$76	
Regular daily rate \$108		\$108
TOTAL	\$252	\$394

¹ A participant is a client who participates in the funding of ENPQ pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1).

² Rate applicable for a client who is not participating in the ENPQ funding, pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1), and enrolled in a course under the responsibility of Advanced Police Training.

Any other rate is available upon request.

Additional Information

Successful completion of this course is required to register for:

- *Quad Patrol* [210-301-06]

210-301-06 – Quad Patrol

This course requires a certain amount of physical exertion.

Course duration	24 h
Work in class	0 h
Mandatory work after class	3 h
Number of places	6
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to patrol effectively on a quad and to develop the specific behaviours and skills necessary to intervene appropriately within the context of their duties.

Prerequisite(s)

- *Act Respecting Off-Highway Vehicles* [210-203-06]

Requirement(s)

- Must be a peace officer.

Particularity

The course material is available in the digital learning environment (Moodle).

The organization must ensure that all vehicles used to transport quads comply with the Highway Safety Code standards, including tow mirrors, the trailer fastening system and the quad securement systems.

During this course, participants must leave ENPQ and/or campus in uniform. This course requires a certain amount of physical exertion. It is strongly recommended that the organization assess the student's health and fitness using the [Physical Activity Readiness Questionnaire \(PAR-Q\)](#) .

Risk Acceptance

From the time of reservation, registration and until the end of training, the organization certifies that the student is fit to take the course and accepts the inherent risks. The organization is responsible for cancelling a student's registration if the student's health

and fitness are no longer sufficient for the course. Furthermore, ENPQ reserves the right to interrupt a student's training if it has reason to believe that the student's health and fitness are not adequate; ENPQ will inform the organization accordingly.

Content

Quad patrol planning — Preparing and checking material — Transporting a quad safely — Using hand signals correctly — Performing safe driving manoeuvres — Using repair techniques — Intervening during routine, planned and high-risk situations

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees	\$1,513	\$2,428
Lodging (room and board, single occupancy, taxes not included)

210-302-06 – Snowmobile Patrol

This course requires a certain amount of physical exertion.

Course duration	24 h
Work in class	0 h
Mandatory work after class	3 h
Number of places	8
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to patrol effectively on a snowmobile and to develop the specific behaviours and skills necessary to intervene appropriately within the context of their duties.

Prerequisite(s)

- *Act Respecting Off-Highway Vehicles* [210-203-06]

Requirement(s)

- Must be a peace officer.

Particularity

The course material is available in the digital learning environment (Moodle).

The organization must ensure that all vehicles used to transport snowmobiles comply with the Highway Safety Code standards, including tow mirrors, the trailer fastening system and the snowmobile securement systems.

During this course, participants must leave ENPQ and/or campus in uniform.

This course requires a certain amount of physical exertion. It is strongly recommended that the organization assess the student's health and fitness using the [Physical Activity Readiness Questionnaire \(PAR-Q\)](#) .

210-303-18 – Marine Patrol - Block 2

This course requires a certain amount of physical exertion.

Course duration	40 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	6
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students on marine patrol to develop the specific behaviours and skills necessary to intervene appropriately within the context of their duties.

Prerequisite(s)

- *Legal Framework Regarding Marine Patrol - Block 1* [210-202-18]
- *Driving a Vehicle Pulling a Trailer* [201-102-19] or *Driving a Vehicle Pulling a Trailer Requiring a Licence or a Circle Check* [201-103-19]

Requirement(s)

- Must be a police officer.
- Must know how to swim.
- Hold a Pleasure Craft Operator Card (PCOC) for a vessel not exceeding eight metres. See [Transports Canada TP15111E](#) for applicable restrictions on where you can navigate.
- Hold a Small Vessel Operator Proficiency (SVOP) for a vessel more than eight metres in length and less than or equal to five gross tons (GT). See [Transports Canada TP15111E](#) for applicable restrictions on where you can navigate.
- Hold a Limited Master (< 60 GT) for a vessel more than five gross tons. See [Transports Canada TP15111E](#) for applicable restrictions on where you can navigate. Must also hold Marine Basic First Aid and MED A1.
- Hold the SDV-BS (Small Non-Pleasure Domestic Vessel Basic Safety) formerly known as MED A3. This certificate is mandatory with the Small Vessel Operator Proficiency.
- Regarding the Pleasure Craft Operator Card or the Small Vessel Operator Proficiency, must also hold a valid Marine Basic First Aid certificate or any other valid 16-hour general first aid training certificate. At least one person per vessel must hold such a certificate.
- Hold a Restricted Operator's Certificate with DSC (VHF) endorsement for any patroller working on board a vessel and operating such equipment.

École nationale de police du Québec – Course catalogue

For optimal training, please comply with the following requests:

- Provide one approved screening device (ASD) and one Doppler or Laser speed measuring device per two students, prioritizing the type of device used in your organization.
- Police officers must comply with the requirements outlined in the “Reference Document for the Driver of a Vehicle Pulling a Trailer » available in the digital learning environment (Moodle).

Particularity

The police organization must provide a police boat or make an arrangement with another police organization since this course requires one boat for every two students.

In addition, the organization must ensure that the boat has all the equipment required under Part 5 of the Small Vessel Regulations (SOR / 2010-91) and that the boat is in working order. Also, a watertight briefcase must contain all the documents required for patrol, as mentioned in the Legal Framework Regarding Marine Patrol - Block 1 [210-302-18] course.

This course is given with a minimum of two boats, in order to carry out interception and collision manoeuvres.

The course material is available in the digital learning environment (Moodle).

During this course, participants must leave ENPQ and/or campus in uniform.

Students will be required to provide their completed Physical Ability Questionnaire (PAR-Q).

This course requires a certain amount of physical exertion. It is strongly recommended that the organization assess the student's health and fitness using the [Physical Activity Readiness Questionnaire \(PAR-Q\)](#) .

Risk Acceptance

From the time of reservation, registration and until the end of training, the organization certifies that the student is fit to take the course and accepts the inherent risks. The organization is responsible for cancelling a student's registration if the student's health and fitness are no longer sufficient for the course. Furthermore, ENPQ reserves the right to interrupt a student's training if it has reason to believe that the student's health and fitness are not adequate; ENPQ will inform the organization accordingly.

Content

Preparing for marine patrol – Properly driving a truck pulling a boat trailer – Piloting a police boat - Carrying out various seamanship manoeuvres – Intercepting boats– Towing boats – Performing rescues

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees	\$2,650	\$4,260
Lodging (room and board, single occupancy, taxes not included)		
Preferred daily rate \$76	\$380	
Regular daily rate \$108		\$540
TOTAL	\$3,030	\$4,800

¹ A participant is a client who participates in the funding of ENPQ pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1).

²Rate applicable for a client who is not participating in the ENPQ funding, pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1), and enrolled in a course under the responsibility of Advanced Police Training. Any other rate is available upon request.

Field(s)

- Police patrolling

Date of Last Revision

March 30, 2021

214-601-18 – Didactics of Physical Intervention – Requalification Instructor

This course requires a certain amount of physical exertion.

Course duration	96 h
Work in class (included in the course duration)	0 h
Mandatory work after class	0 h
Number of places	12
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to integrate into their teaching and correction of physical intervention techniques the theoretical foundations of the use of force as well as the teaching practices advocated by ENPQ.

To enable students to maintain, develop and enhance their physical intervention technical skills.

Prerequisite(s)

- *Theoretical Foundations of the Use of Force* [218-301-18]

Requirement(s)

- Must be a peace officer.
- Students enrolled in this course must be able to perform the following four techniques before the beginning of the course and meet the criteria on the corresponding evaluation grid:
 1. Speedcuffing without support in a standing position;
 2. Handcuffing with joint restraint in a standing position;
 3. Handcuffing with joint restraint in a prone position;
 4. Neck restraint followed by handcuffing in a prone position.
- For more information, please refer to the [Instructions for the Technical Evaluation](#)  (151 Ko).

Particularity

École nationale de police du Québec – Course catalogue

Have a definite interest in personal defence and some basic experience in combat sports.

Students who have met the requirements of this course must be requalified every three years.

The course material is available in the Physical Intervention Instructor space in the digital learning environment (Moodle). It is the student's responsibility to read and print the material, if desired.

This course requires a certain amount of physical exertion. It is strongly recommended that the organization assess the student's health and fitness using the [Physical Activity Readiness Questionnaire \(PAR-Q\)](#) .

Risk Acceptance

From the time of reservation, registration and until the end of training, the organization certifies that the student is fit to take the course and accepts the inherent risks. The organization is responsible for cancelling a student's registration if the student's health and fitness are no longer sufficient for the course. Furthermore, ENPQ reserves the right to interrupt a student's training if it has reason to believe that the student's health and fitness are not adequate; ENPQ will inform the organization accordingly.

Content

National Use of Force Model — Use of force form — Essential qualities in defence — Physical control mechanisms — Mechanics of physical intervention — Basic principles of defence — PADA — Tactical principles — KION/AI — Levels of alertness — Methodical process of a police intervention — Medical consequences, warm-up and safety measures — Legal notions on the use of force — Communication — Weaver stance — Approach, initial contact, physical invitation, escort, transport and joint restraint techniques, handcuffing and body search techniques — Pressure points — Pepper spray — Neck restraint — Defence against severe physical aggression — Handling of the expandable baton — Weapon retention — Group Intervention — Supervision by the instructor — Stress and intervention — Supervised teaching — Scenario-based simulations

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees	\$1,527	\$3,482
Lodging (room and board, single occupancy, taxes not included)		

Preferred daily rate \$76	\$912	
Regular daily rate \$108		\$1,296
TOTAL	\$2,439	\$4,778

¹A participant is a client who participates in the funding of ENPQ pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1).

²Rate applicable for a client who is not participating in the ENPQ funding, pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1), and enrolled in a course under the responsibility of Advanced Police Training.

Any other rate is available upon request.

Additional Information

Successful completion of this course is required to register for:

- *Didactics of Physical Intervention – Requalification Instructor- Requalification* [214-602-19]
- *Conducted Energy Weapon - Instructor* [214-703-20]
- *Intervention Using a Containment Body Shield- Instructor (without requalification)* [214-712-20]

Field(s)

- Police patrolling

Date of Last Revision

July 15, 2020

214-703-20 – Conducted Energy Weapon– Instructor

This course requires a certain amount of physical exertion.

Course duration	40 h
Work in class	5 h
Mandatory work after class	0 h
Number of places	8
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to integrate into their teaching on the conducted energy weapon the teaching practices advocated by ENPQ.

To train the students on the conducted energy weapon in accordance with a Quebec training standard pursuant to the police practice, the recommendations from the Standing Advisory Subcommittee on the Use of Force as well as contemporary teaching methods.

Prerequisite(s)

- *Pistol Shooting – Requalification Instructor [216-604-07] or Physical Intervention – Requalification Instructor ([215-601-07] or [214-601-17]) or Didactics of Physical Intervention – Requalification Instructor [214-608-18] or Tactical Intervention 1 – Containment Capability- Requalification Instructor [215-601-07] or Conducted Energy Weapon – SWAT Instructor [215-808-11]*
- *Teaching and Learning Practices [232-201-08] or Teaching Practices and Coaching [232-204-07] or Animator [232-201-06] or Integration to the Instructor Function [232-803-16]*
- *Conducted Energy Weapon ([214-201-10] or [214-211-20]) or Conducted Energy Weapon (X2) ([214-203-15] or [214-203-16]) or Conducted Energy Weapon (T7) [214-210-19] or Conducted Energy Weapon – Transition (X2) [214-101-15] or Conducted Energy Weapon – Transition (T7) [214-104-19].*

Requirement(s)

- Must be a peace officer.

Particularity

Students will have access to the trainer space in the digital learning environment (Moodle). It is their responsibility to read and print the course material, if desired.

École nationale de police du Québec – Course catalogue

Students enrolled in this course will be required to perform physical control techniques. Therefore, they must be able to use the equipment on their duty belt and apply the techniques correctly (e.g., handcuffing techniques).

Students must be requalified yearly.

Students enrolled in this course should have significant field experience with the CEW.

This course requires a certain amount of physical exertion. It is strongly recommended that the organization assess the student's health and fitness using the [Physical Activity Readiness Questionnaire \(PAR-Q\)](#) .

Risk Acceptance

From the time of reservation, registration and until the end of training, the organization certifies that the student is fit to take the course and accepts the inherent risks. The organization is responsible for cancelling a student's registration if the student's health and fitness are no longer sufficient for the course. Furthermore, ENPQ reserves the right to interrupt a student's training if it has reason to believe that the student's health and fitness are not adequate; ENPQ will inform the organization accordingly.

Content

Police practice 2.1.2.1 on the conducted energy weapons — Medical component — Operational component — Management component — Training component — Death in custody — Excited delirium — Handling techniques — Team work — Window of opportunity — Intervention plan — Communication — Supervised teaching — Scenario-based simulations

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees	\$1,852	\$4,385
Lodging (room and board, single occupancy, taxes not included)		
Preferred daily rate \$76	\$380	
Regular daily rate \$108		\$540

214-704-20 – Conducted Energy Weapon – Instructor – Requalification

This course requires a certain amount of physical exertion.

Course duration	8 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	8
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to review in their teaching on the conducted energy weapon the teaching practices advocated by ENPQ.

To enable students to maintain, develop and enrich their competencies by requalifying as a CEW instructor.

Prerequisite(s)

- *Conducted Energy Weapon* ([214-201-10] or [214-211-20]) or *Conducted Energy Weapon - Requalification* ([814-301-12] or [214-306-20]) or *Conducted Energy Weapon (X2)* ([214-203-15] or [214-203-16]) or *Conducted Energy Weapon (X2) - Requalification* [214-303-18] or *Conducted Energy Weapon (T7)* [214-210-19] or *Conducted Energy Weapon (T7) - Requalification* [214-305-19] or *Conducted Energy Weapon - Transition (X2)* [214-101-15] or *Conducted Energy Weapon - Transition (T7)* [214-104-19]

Requirement(s)

- Must be a peace officer.

Particularity

At the end of this course, the requalification instructor will receive a qualification card valid for three years.

Students will have access to the trainer space in the digital learning environment (Moodle). It is their responsibility to read and print the course material, if desired.

This course requires a certain amount of physical exertion. It is strongly recommended that the organization assess the student's health and fitness using the [Physical Activity Readiness Questionnaire \(PAR-Q\)](#).

Risk Acceptance

From the time of reservation, registration and until the end of training, the organization certifies that the student is fit to take the course and accepts the inherent risks. 215-201-10 – Low-Risk Planned Dynamic Entry

This course requires a certain amount of physical exertion.

Course duration	24 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	12
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to safely perform a dynamic entry in a planned, low-risk operation.

Prerequisite(s)

None

Requirement(s)

- Must be a peace officer.

Particularity

During this course, participants must leave ENPQ and/or campus in uniform.

The risk assessment of the intervention is validated by a ranking officer or a person designated by the organization who has completed the *Assessment of Risk Associated with a Planned Intervention* [215-105-18] course.

Students enrolled in this course will be required to perform physical control techniques. Therefore, they must be able to use the equipment on their duty belt and apply the techniques correctly (e.g., handcuffing techniques).

This course requires a certain amount of physical exertion. It is strongly recommended that the organization assess the student's health and fitness using the [Physical Activity Readiness Questionnaire \(PAR-Q\)](#) .

Risk Acceptance

From the time of reservation, registration and until the end of training, the organization certifies that the student is fit to take the course and accepts the inherent risks. The organization is responsible for cancelling a student's registration if the student's health and fitness are no longer sufficient for the course. Furthermore, ENPQ reserves the right to interrupt a student's training if it has reason to believe that the student's health and fitness are not adequate; ENPQ will inform the organization accordingly.

Content

Legal aspects — Properly using the “Assessment of Risk and Authorization of Planned Police Intervention” form — Assessing the risks associated with a low-risk, planned police entry — Selecting the most appropriate method — Conducting a reconnaissance of the premises — Drafting a low-risk, planned police entry plan — Conducting a briefing — Conducting a low-risk, planned police entry — Doing a follow-up

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees	\$834	\$1,400
Lodging (room and board, single occupancy, taxes not included)

216-103-19 – Shooting Range Safety Official (online training)

Course duration	1 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	Upon request
Number of groups planned	Upon request

Competencies or Objectives

To enable students to assume the role of safety official, particularly on an outdoor range.

Prerequisite(s)

- *Teaching and Learning Practices* [232-201-08]

Requirement(s)

- Must be a peace officer.

Particularity

This course is only available to trainers and future trainers in the shooting disciplines.

This course is available for 8 weeks in the digital learning environment (Moodle).

Students who have met the course requirements will receive an accreditation valid for three years.

Content

Role and responsibilities of the safety official and training staff – Legal framework – Access to and inspection of the shooting range – Establishment of work areas – Safety and protective equipment – Injury management and evacuation plan – Participant management and safety guidelines – Safety rules for safe handling of firearms – Scenario-based simulations – ACTS Rule and PROVE Protocol

2020-2021 Student Rate

	Participant ¹	Non participant ²
Training fees	\$50	\$75
TOTAL	\$50	\$75

¹ A participant is a client who participates in the funding of ENPQ pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1).

² Rate applicable for a client who is not participating in the ENPQ funding, pursuant to section 43 of the *Police Act* (CQLR, chapter P-13.1), and enrolled in a course under the responsibility of Advanced Police Training. Any other rate is available upon request.

Additional Information

Successful completion of this course is required to register for:

- *Support Weapon – Instructor – Upgrade* [216-708-20]
- *.223 Calibre (5.56 X 45 mm) Support Weapon – Requalification Instructor* [216-609-11] and *.223 Calibre (5.56 X 45 mm) Support Weapon – Requalification Instructor – Requalification* [216-610-14]
- *Support Weapon – Instructor* [216-709-20] and *Support Weapon – Instructor – Requalification* [216-710-20]

216-206-07 – 12-Gauge Shotgun

This course requires a certain amount of physical exertion.

Course duration	6 h
Work in class	0 h
Mandatory work after class	0 h
Number of places	4
Number of groups planned	Upon request

Competencies or Objectives

To enable students to develop their technical skills related to the handling and operation of a 12-gauge shotgun.

Prerequisite(s)

None

Requirement(s)

- Must be a peace officer.

Particularity

Students must be requalified yearly.

This course requires a certain amount of physical exertion. It is strongly recommended that the organization assess the student's health and fitness using the [Physical Activity Readiness Questionnaire \(PAR-Q\)](#) .

Risk Acceptance

From the time of reservation, registration and until the end of training, the organization certifies that the student is fit to take the course and accepts the inherent risks. The organization is responsible for cancelling a student's registration if the student's health

and fitness are no longer sufficient for the course. Furthermore, ENPQ reserves the right to interrupt a student's training if it has reason to believe that the student's health and fitness are not adequate; ENPQ will inform the organization accordingly.

Content

Basic principles of 12-gauge shotgun shooting — Ballistics — Detection and correction of technical errors — 12-gauge shotgun, mechanisms and operation — Effective and safe operation — Maintenance, storage and transportation — Judicious use of a support weapon

2020-2021 Student Rate

This course is generally taught by a requalification instructor duly trained by École nationale de police du Québec. This in-house course takes place within Quebec police organizations.

ENPQ may nonetheless offer this course to police forces requesting it. Both parties will agree to a rate depending on where the course is given and how many students are registered.

Field(s)

- Police patrolling

Date of Last Revision

July 9, 2018

216-604-07 - Pistol – Requalification Instructor

This course requires a certain amount of physical exertion.

Course duration	80 h
Work in class (included in the course duration)	8 h
Mandatory work after class	0 h
Number of places	8
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to integrate into their teaching on the pistol the teaching practices advocated by ENPQ.

To enable students to maintain, develop and enrich their skills in the handling and use of a pistol.

Prerequisite(s)

- Shooting course of the Basic Training Program in Police Patrolling or *Defensive Shooting - Revolver* [216-209-02] or *Defensive Shooting - Pistol* [216-301-08] or *Pistol - Requalification* [216-207-07] or *Defensive Shooting - Pistol* [816-202-07]
- *Animator* [232-201-06] or *Teaching and Learning Practices* [232-201-08] or *Educational Practices and Coaching* [232-204-07] or *Integration to the Instructor Function* [232-803-16]
- *Shooting Range Safety Official (online training)* [216-103-19]

Requirement(s)

- Must be a peace officer.

Particularity

The course material is available in the digital learning environment (Moodle). It is the student's responsibility to read and print the material, if desired.

Students who have met the requirements of this course must be requalified every three years.

Passing the certification evaluation course of fire of the *Handle a Pistol in a Defensive Shooting Situation* [116-201-13] course is required at the beginning of the *Pistol –Requalification Instructor* [216-604-07] course and is mandatory to continue this training.

This course requires a certain amount of physical exertion. It is strongly recommended that the organization assess the student's health and fitness using the [Physical Activity Readiness Questionnaire \(PAR-Q\)](#) .

Risk Acceptance

From the time of reservation, registration and until the end of training, the organization certifies that the student is fit to take the course and accepts the inherent risks. The organization is responsible for cancelling a student's registration if the student's health and fitness are no longer sufficient for the course. Furthermore, ENPQ reserves the right to interrupt a student's training if it has reason to believe that the student's health and fitness are not adequate; ENPQ will inform the organization accordingly.

Content

Philosophy of the instructor — Pistol shooting fundamentals — Psychology of the gunman — Ballistics — Supervision by the instructor — Detection and correction of technical errors — Direction of a line of fire — Pistols, mechanisms and operation — Effective and safe handling — Pieces of equipment and cleaning — Techniques for unjamming a pistol

436-107-16 – Forensic Police Officer

Course duration	32 h
Work in class	0 h
Mandatory work after class	2 h
Number of places	12
Number of groups planned	To be confirmed

Competencies or Objectives

To enable students to intervene appropriately at a crime scene that does not require the intervention of a forensic identification technician and to acquire the knowledge and skills that will enable them to find, protect, collect samples and gather clues that are likely to provide or support evidence for court.

Prerequisite(s)

- *Forensic Digital Imaging (online training)* [436-208-15]

Requirement(s)

- Must be a police officer.

Particularity

Students must have a digital camera and a forensic police kit.

Each theoretical component includes practical exercises.

Content

Return to the portfolio [436-208-15] - Intervention at the crime scene – Examination and sampling at a minor crime scene – Analysis of the various possible types of expertise – Fingerprints, powder or lab, DNA, forms – Note-taking, reports, sketches and requests for expertise – Tool marks

803-103-18 - Opioid Overdose Intervention

Duration of the interactive capsule	15 min
Work in class (included in the duration of the course)	n/a
Mandatory work after class	n/a
Number of places	Unlimited
Number of groups planned	Upon request

Competencies or Objectives

To enable students to recognize the signs and symptoms of opioid overdose, respond to a person suffering from an opioid overdose, and administer naloxone (antidote).

Prerequisite(s)

None

Requirement(s)

- Must be a peace officer.

Particularity

This interactive capsule is in line with the *2018-2020 National Strategy for Preventing and Responding to Opioid Overdoses (Stratégie nationale pour prévenir les surdoses d'opioïdes et y répondre)* implemented by the Government of Québec. It was developed in collaboration with the Ministère de la Sécurité publique and Ministère de la Santé et des Services sociaux of the Government of Québec. It is deployed in organizations through facilitators and takes the form of an interactive video.

Content

Opioid overview – Statistics on the opioid situation – Signs and symptoms – Intervention steps – Caring for a person suffering from an opioid overdose – Administering naloxone – Good Samaritan Act and helping overdose victims

2020-2021 Student Fee

No fee for the intended clientele.

828-102-15 - Prevention of Psychological Impacts (Manager)

Course duration	8 h
Work in class (included in the course duration)	15 min
Mandatory work after class	0 h
Number of places	12
Number of groups planned	To be confirmed

Competencies or Objectives

The purpose of this course is to develop the participants' competencies to adequately fulfill their roles and responsibilities during upsetting or potentially traumatic events with personnel working in emergency situations. An expert (psychologist), through an electronic presentation and group discussions on the subject, helps participants develop their competencies.

At the end of this course, participants will be able to:

- promote the importance of psychological prevention within their police organization;
- recognize work situations at risk of psychological impacts;
- select the suitable response tools according to the events;
- support their personnel regarding their psychological needs.

Prerequisite(s)

None

Requirement(s)

- Be employed by a police force, public security department, ministry or public or parapublic agency.
- Be a senior manager or human resources representative.

Particularity

A minimum of 10 participants is required for this course. A maximum of 12 participants will be accepted.

Content

Psychological impacts inherent to the profession of emergency responders — Peritraumatic reactions — Potentially traumatic event — Post-traumatic stress disorder — Benefit of psychological prevention — Types of prevention — Roles and responsibilities of the manager in psychological prevention — Resistance to receiving help — Defusing — Psychological debriefing — Behaviours to avoid in helping relationships — Warning signs — External resources

828-107-17 - Prevention of Psychological Impacts among Police Officers (online training)

Course duration	5 h
-----------------	-----

Work in class (included in the course duration)	0 h
Mandatory work after class	0 h
Number of places	n/a
Number of groups planned	n/a

Competencies or Objectives

This course is designed to increase understanding of the psychological impacts inherent to the profession of emergency responders.

The objectives of this course are to:

- support peers in their psychological needs;
- clarify roles and responsibilities regarding peer psychological prevention;
- know the main prevention tools available to emergency responders;
- understand the differences in the reactions of responders exposed to the same potentially traumatic event;
- develop personal coping strategies to counter psychological impacts;
- understand the concept of resilience in emergency responders.

Prerequisite(s)

None

Requirement(s)

- Must be a police officer.

Particularity

Online training.

This training is approximately five hours in length (4 modules of one hour and fifteen minutes). The pedagogical tools used are capsules, narrative drawings, PREZI presentations, questionnaires, self-evaluations, testimonials and text modules (lessons).

This online training:

- can be adapted to organizational capacities;
- allows for user flexibility (short sequences, varied schedules);
- can be accessed on different types of devices (computer, tablet, cell phone).

Content

Psychological impacts inherent to the profession of emergency responders — Peer support- Prevention tools – Individual variabilities – Coping strategies and resilience.
